

Proposed Title of Paper

Author Name(s)

February 23, 2024

Abstract

The proposal should include a short (3-5 sentences) abstract. You are not bound by the title or abstract that you choose now, but the abstract should tell me what it is you hope to learn as you write the paper.

You are allowed up to one collaborator. If you choose to collaborate with someone, only one of you needs to submit the PDF on Gradescope, but **be sure to make it a group submission!**

Finally, you must list at least two sources you plan to consult as you prepare the paper. It's possible (though unlikely) that only one good source exists for your topic. In that case, contact me before submitting your proposal.
